

Ascentul App Testing

University Admin

Nav Bar

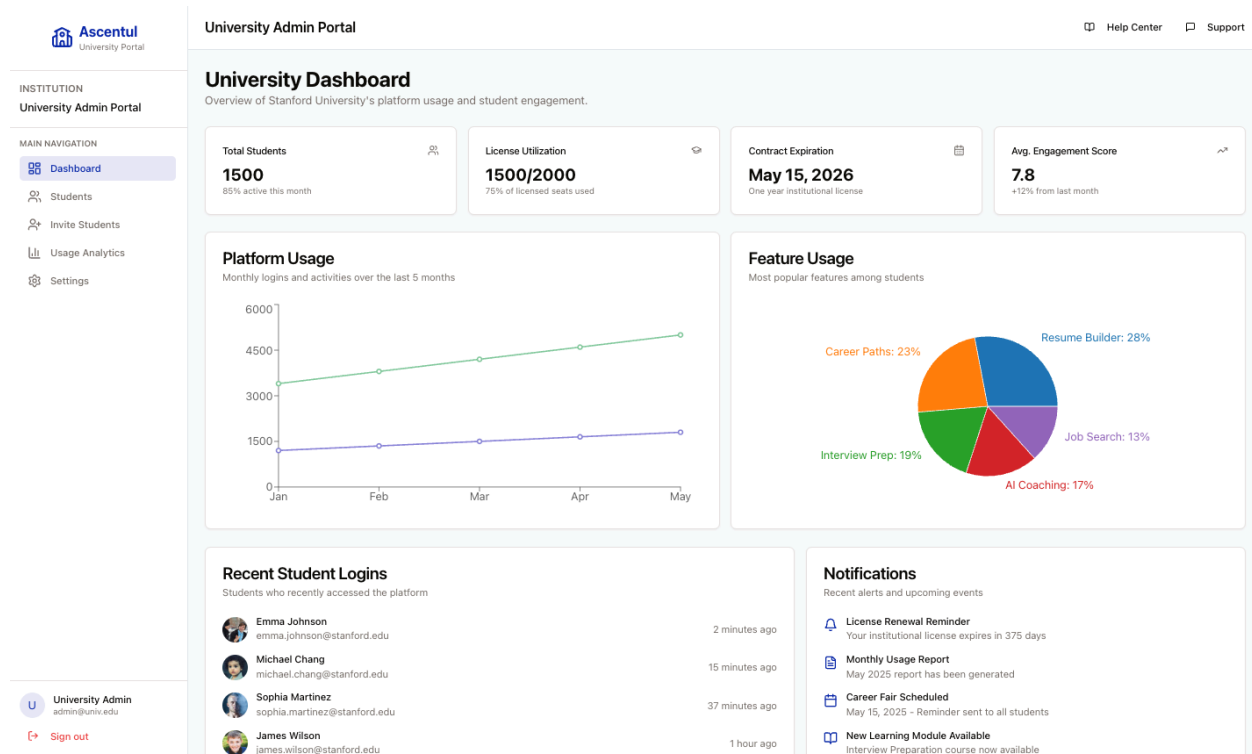

- Missing **Usage Analytics** tab
- **Remove Course Management Tab**
- **The student progress tab shows nothing so hard to review.**
 - Student progress should be a toggle inside the students feature tab
 - showing how the students progress, looking at students tracking applications, completing goals, and creating resumes / cover letters
- **Nav bar should be**
 - Dashboard
 - Students
 - Departments
 - Usage Analytics
- Super admin feature tabs showing in the University admin nav bar.
 - **Need to remove:**
 - **Admin dropdown**
 - **Admin dashboard**
 - **User Management**

Dashboard

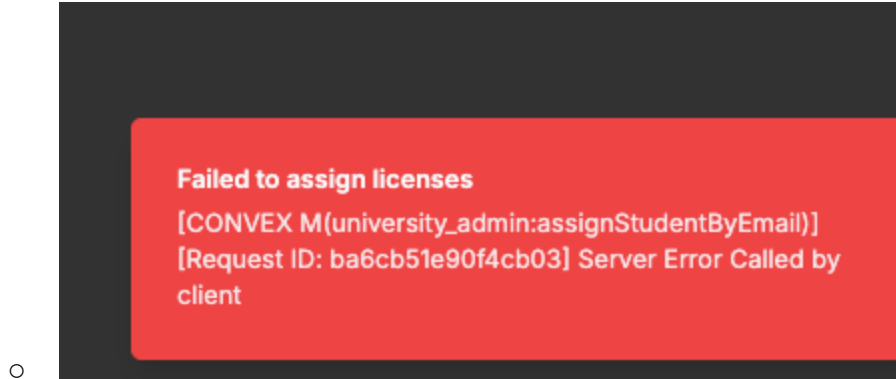

- **Overview Tab**
 - **Export Reports button does not work**
 - **Stat cards:**
 - Total Students - correct
 - Total Students - correct
 - Courses - Incorrect should be “Active Students (This Month)”
 - Completion Rate - should be “Applications Tracked (This Semester/Month)”
- **Missing / wrong charts (correct chart example below)**
 - “Courses published status” chart should be Platform Usage chart.
 - “Course Completion Rate” chart should be “Feature Usage” chart
- **Can we add one more chart:**
 - **Student Progress Insights**
 - Goals in Progress vs. Completed → how many career goals are being set and achieved.

- Applications by Stage → e.g., “In Progress,” “Submitted,” “Interviewing,” “Offer.”
- Resume/Cover Letter Activity → how many created or uploaded.

Students Tab:

- Students tab in toggle should show student data charts and recent activity (not the record list)
 - Record list should live in the students feature tab
- “Add Student Licenses” button opens pop-up but pop up submit does not work. Results in error

Courses Tab: (remove tab)

Departments Tab:

- The **Create Department** button can be removed, this should just be an overview of departments
 - Need to see the department usage charts on this page.
-

Student progress (change tab name to **Students**)

- Cannot review because adding students is not working yet.
- This feature should have a toggle
 - **Toggle:**
 - Students (list record style showing all students)
 - Student Progress (Shows stats on student progress
 - Applications, Interview stages, Goals, resumes and cover letters
 - Invite Students
 - The page we had before that allows inviting students by csv upload and assign departments in the upload process with

the programs button

- Old student UI (need this plus the toggle if possible)
